EDUCATION

2015 - 2020

Computer Engineering
Michoacan University of San
Nicolás de Hidalgo

CERTIFICATIONS

BRAYAN CHICHIPAN

Computer Engineer

PROFILE

FrontEnd Web Developer

Development of Web applications on the Client side using ReactJS and/or NextJS library.

Backend Developer

Development of server-side applications using NodeJS (express, NestJS)

EXPERIENCE

FullStack Developer
Michoacan University of San Nicolás de Hidalgo

Jan 20 - Dec 20

Development of a module for the UMich quality objectives department. My responsibilities included the complete development of the Backend using NodeJS (express) with JsonWebToken for authentication. The Frontend was developed with the ReactJS library using the REDUX pattern. Additionally, I was responsible for the design of the relational database (SQL) with MySQL database management and deployment on Linux servers.

- Complete Backend development using NodeJS (express) and authentication management with JsonWebToken.
- Frontend development with ReactJS library using the REDUX pattern.
- Relational database design (SQL) with MySQL and deployment on Linux servers.

Technologies:

- NodeJS
- JsonWebToken
- ReactJS
- HTML, TailwindCSS
- MySQL

FrontEnd Web Developer
Loft México (Truehome)

Aug 2021 - Feb 2023

Development of new modules required for the company both on the end customer side and web administration application for internal use. Refactoring and integration of Features in the Project.

CCNA - Introduction to Networks

CCNA - Switching, Routing, and Wireless Essentials

CCNA - Enterprise Networking, Security, and Automation

Modern JavaScript (WebPack)

ReactJS (MERN)

NodeJs (express)

- Integration of microfrontends
- Authentication using JWT
- Development across multiple projects
- Agile methodology

Technologies:

- React (16,17,18)
- NextJS (ssr/ssg/csg)
- Styled Components
- Webpack5
- HTML, CSS, SASS
- Jest (pruebas unitarias)
- Storybook
- Redux (Convencional y RTK)
- ContextApi
- Axios
- Formik - React hook form
- git (conventional commits)
- Azure/Gitlab DevOps

Full Stack Engineer Sports Insight LLC

Oct 2023 - Present

As a Full Stack Developer at Sports Insight LLC, I play a key role in enhancing and evolving our digital solutions in the sports domain. My responsibilities include refactoring existing codebases for improved performance and maintainability, architecting project structures for scalability, and developing new features to meet our dynamic needs. I work extensively with Next.js, React, Express, Node.js, and GraphQL, leveraging these technologies to deliver robust, efficient, and user-centric web applications.

Technologies:

- Node.js
- React
- MUI
- Next.js
- Express
- GraphQL
- MongoDB
- PostgreSQL

- 
- NestJS
 - GitLab CI/CD
 - Docker
